RE: RECENT SPORTS HALL FLOOR REFURBISHMENT

We were recently placed in the tricky situation of having to have our sports hall floor replaced due to severe water damage following a storm. Having used Peter Dorrell for many years to annually maintain the flooring, I contacted them with a view to carrying out this work. I have to say their service and advice from beginning to end was exceptional and extremely professional. The work was booked to take nine days and during that time the team who arrived to carry out this job worked quickly, without fuss and, above all, proficiently. If problems were encountered, they were dealt with speedily and with the minimum of inconvenience to us.

We would like to thank Peter Dorrell for contributing to make, what was a very difficult situation, easier to cope with purely by their total professionalism. I have no hesitation in recommending this Company.
